THE CUBAN SITUATION.

The present disturbance in Cuba points to but one, single thingannexation of that island to the Although veiled pretext, the revolutionists are annexationists Cubeand they raigned against the element that would maintain an independent re-That the trouble will lead publie. to blows and to war is as certain as the appearance of the sun in tomorrow's eastern sky. It will thou be that the United States will appear upon the scene with her olive brauch and policy of "benevolent assimilation," and Cuba will be added to the scalp belt of the Great Republic.

The effect of such a turn of affairs is plainly manifest. It will mean the development of Cubs slong lines which, in their macsivameer, were never before contemplated. will mean the turning of miles and hundreds of miles of fertile, al though unoccupied, lands into sugar, ment on an auto. We would like and it will mean that Cube will take to know why he should be so special-

her place as the greatest sugar preducing country the world has ever known or ever will know.

And where will little Hawaii get off in the shuffle? Hampered by her labor troubles, incident to au nexation, she will be forced to "go way back and sit down." She will be no more able to compete with Cubs than a horse is able to fly This is another of the glorious benefits of annexation !

TOPICS OF THE DAY.

Rapid Transit 6 per cent bonds sold at 108 on Saturday. This shows more conclusively than could be ex pressed in words that the Government should own and control the

Formerly the Government supplied certain of employees with horses and buggies and Senator Mo-Candless secred such extravagance is the Legislature. Now it's to be automobiles! What next?

A "gala week" open a year would be entirely apropos and a great thing for Honolulu. A week's program could easily be put on here that would attract thousands of pleasure seekers from the mainland as well as people from the other islander

The cowboy tournament of Saturday was a success in one way; but Honolulu wants of trifle of the real thing. Real wild cattle were not introduced into the arens at all, old bern-yard milehers only being in evidence. Give us the real thing next time, Mr Low.

In regard to the testimonials paid this morning to the memory of the late William N Armstrong in the Supreme Court we will remain mute. Just fancy that Sam Johnson is to ride about inspecting road work on automobile and the Supervisors have given him a fortnight's experily fayored. Treasurer Treat was refused an adding machine, althoug necessary, but Sam is granted his request. An automobile to inspect work looks like a pleasure trip about the city at tanpayers expense. Bet ter cut it out and let him go about in the old way.

There is estory behind the withdrawal of Company B (which was here last night on the transport) from Peking. It is said that the present Minister to China, Mr Rockhill, is patterned after Charlemange Tower, minister to Russia, believing in knee breeches and all the gew gaws of modern royalty. He preferred the natty uniform of the marines to the khaki of the soldiers. so had the latter withdrawn.

Although TER INDEPENDENT does not approve of the manner in which the Advertiser staff came to the front in a plainly unjournalistic method to prejudies the public against the conduct of the Police department yet, THE INDEPENDENT most strongly objects to the methods adopted by police partisans in assaults and brusqueness to newspaper reporters. True, or not, the "Ayera" assault story in this morning's paper demands immediate and thorough investigation and proper action.

If Road Supervisor Sam Johnson is to have an automobile at public expense, why is the same privilege to be denied other officials ? Surveyor Wall needs an auto and so does the tax collector. An auto would some handy for the tressurer and certainly the lend commissioner should have one. The men in the water-works department, who have to respond to sudden calls, should pertainly have autos. It is cortainly expecting too much that they should take second place to the Road Supervisor. Give all them sutomobiles !

Paralysis

is sometimes caused by overwork, either mental or physical. There are many other exciting causes, such as exposure to cold, excesses, emotional influences, etc. The approach of the disease is generally gradual. Frequently the first warning is a vague feeling of headache, vertigo and muscular weakness.

restore the nutrition of the nerves and have cured many cases of paralysis when all other remedies and methods of treatment have failed. The record of this remedy entitles it to a thorough trial.

reshaps there is no man better known in the city of Lawrence, Kansas, than Mr. G. H. Snyder. To a reporter Mr. Snyder related a wonderful story. He said:

"I am now seventy years of age. About three years ago I experienced a coldness or numbness in the feet, then creeping up my legs until it reached my body. I grew very limin in flesh, my appetite was very poor and I did not relish my food. At least I became so bad I was unable to move about. I consulted several distinguished physicians, one telling me that I had locomotor ataxia, another that I had creeping paralysis. I took their medicines but they did me no good and I continued to grow worse.

"One day a friend advised me to try Dr. Williams' Pink Pills for Pale People. I immediately commenced their use, throwing all other medicines away. Before I had finished my first box I found that they were benefiting me. I used twelve boxes in all and was perfectly cured."

—From the Journal, Lawrence, Kan.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves.
